

Electric Pump Switch NB IoT

Instantaneous control electric pumps and monitor multiple sensors

theyabby.com.au

Overview

CELLULAR 4G LTE-M / NB-IOT

Feature-rich battery or external powered NB-IoT ON/OFF pump switch for electric pump applications. Additional Water Level, Rainfall, Temperature and Humidity Monitoring available.

1x relay output and 2 x switch inputs
Extra inputs available to add a rain gauge, water level, temperature, humidity sensors, etc

Precision pressure transducer for accurate water level monitoring

Weatherproof and ultra-rugged IP67 housing with compact and ergonomic design

Flexible power options - 3 x AA batteries with up to 7 years battery life or wired to permanent power

Built-in battery meter for remote battery life monitoring and remaining life predictions

High-precision GPS
